Host Church/Church Liaison

Last Bell wants to connect with your church, and you can help! Our relationships with churches are vital for financial support, prayer, and meeting new volunteers.

There are many ways to connect Last Bell to your church. You might go on a service-learning trip first and bring back stories; dig deep into our website and newsletters and share with your small group; request a Church Packet to share with your missions committee; or gather in-kind donations. Be creative!

As we learn more about your church, and as your church gets to know us, we can tap into the special gifts and passions of your congregation.

Construction Crew Mobilizer

Mobilize a team from your church community to come serve, share skills, get to know our team and youth, and see the impact of the Restoration Project. The ideal team is comprised of 6 to 8 people with specific skill sets (painting counts!), who might even bring a new skill to teach. We're looking for a passionate leader to lead a team at least two years in a row, build relationships with our staff and the orphanage graduates on our Restoration Project crew, and return to the U.S. ready to advocate for Last Bell's ministry and model.

Seasonal US Intern

Students or recent grads, we're seeking enthusiastic young people to serve 10-20 hours/week through either the summer or the school year helping Last Bell advance our mission. Working remotely would be fine for most of these hours! We also consider applications for intern work in Ukraine.
